

THE OFFICIAL NEWSLETTER OF THE ATLANTA CHAPTER, INC., CHAPTER NUMBER 0788**DIRECTOR'S CORNER:**

Happy April Atlanta Chapter H.O.G.!! Well our year is off to a great start and the calendar is filling up with lots of fun things to do and places to go! As I'm writing this article I'm in Daytona for BIKE WEEK! This week in March always signals the start of riding season for me, all of the shows, vendors, concerts, and people make me happy for the lifestyle Melissa and I have chosen. As I think back I can remember lots of good times and changes in the motorcycle community (this is my 41st bike week in Daytona); it's fun to reminisce about the "old days". I remember an annual event in New Smyrna Beach where a local club from Atlanta (Custom Riders m/c) raised money for charity with the "sand drags" on the beach by charging 25 cents per run; there were usually hundreds of bikes waiting to "wind it out" on the beach! The North Turn Bar and Grill on A1A was and still is a popular hangout, there's memorabilia on the walls that date back to the 50's when the "race" was held half on the beach and half on A1A (3.2 mile course; I never witnessed those). My first few years coming to bike week, I slept in a tent beside the Exxon station across from the speedway. A friend of mine worked there and they left the restroom open for us and we used their vending area tables to hang out at when not out and about. I remember another time that I had worked on my '48 Panhead all winter painting, chroming, polishing, and in general rebuilding...it was really looking good! I rolled onto Main St and parked planning to hang out there for a while; within 10 minutes a custom bike parked next to me that was ridden by Arlen Ness, needless to say people were slobbering all over my bike trying to get pictures of his, oh well so it goes. I could probably go on and on with good time bike week stories but I'll save them for another day, right now I think I'll head over to the Iron Horse Saloon and listen to a little David Allan Coe!

Today our group of Atlanta Chapter H.O.G. members are second to none! We have a great group of people who just want to ride and have fun! I hope each of you will take full advantage of being part of our family; there should be something for everyone. All you need to do is volunteer, participate, and enjoy the good times!

Ride on!

Chuck "Chaos" Fuller, Director

ASSISTANT DIRECTOR'S CORNER

As Assistant Director, I am handling the New Member Orientation and New Member Ride. New Member orientation will be on April 18th at 10:00 am in the Pavilion at HDA, KSU (Kickstands Up) at 10:45 am. We will take a 50 mile ride from HDA on some less traveled roads around Douglas, Cobb and Carroll County that will take about an hour and 20 minutes returning to the Pavilion. We are also having a "Slow Cook-off" (whatever is your specialty in a Crock Pot) that day that will be handled like our Chili Cook-off with free tickets for first time members from October of 2014 thru this date. Others can purchase tickets for samples to vote on the best dish that they had (No Alpo this time Mark). I look forward to seeing our new members as well as current members for a great day of riding and friendship.

PIG RIDE LEGEND

ONE PIG: Non-curving terrain and a ride of short duration (50 miles round trip)

TWO PIGS: A few gentle curve and be a bit longer (100 miles round trip)

THREE PIGS: Long ride (200 miles round trip) with curving terrain and urban area traffic.

FOUR PIGS: Lots of curves, some with “decreasing radius” turns and/or cover a major distance requiring a good deal of technical skill and stamina. Major traffic such as I75 can be part of this rating.

FIVE PIGS: Most difficult category due to the severity and number of curves combined with a long ride. The Southern Highroads Trail, Suches, and Gatlinburg would fall into this category.

TREASURER'S ARTICLE: ATTENDANCE JACKPOT

Congratulations to Darren Goodwin whose name was drawn for the Marck Attendance Jackpot. Darren was not at the meeting to claim the \$50. We will add \$10 to the Jackpot for the next chapter meeting, bringing the jackpot to \$60. Remember you must be at the meeting and a member in "Good Standing," a current member of national H.O.G. and Atlanta Chapter. If the member whose name is drawn is not at the meeting, we will add \$10 and try again next meeting. Please have your National H.O.G. card with you at the meeting. Hope to see everyone there.

René Durham, Treasurer

MEMBERSHIP CORNER: ABCS OF TOURING

Current Members: 230

Inactive: 1

Since we have so many new folks in our Chapter, I want to touch on the ABCs of Touring this month. You may have heard us talk about ABC rides and wonder what exactly that might be. The ABCs of Touring is considered a benefit of your National H.O.G. membership. You can earn awesome prizes just for riding your Harley! Crazy right? How many of us need any incentive to jump on our scoots and boogie down the road? Not this girl! However, I have for the past two years participated in the ABCs of Touring and have enjoyed the rides and fellowship with other riders on the journey.

Here's how it works:

1. Go to www.hog.com and download the "[Entry Form](#)" and "[HOG Magazine Cover](#)" (if you haven't received the magazine in your renewal packet.)
2. RIDE: Get on your bike with the current issue of HOG magazine or the H.O.G. Touring Handbook (cover will do).
3. SNAP: take a photo featuring you*, your Harley, and the magazine/handbook cover in front of "official signs." Collect points for each photo with a sign designating:
 - a. Cities and towns starting with the first letters from A – Z (1 each letter, 26 points)
 - b. Counties starting with the first letters from A – Z (1 each letter, 26 points)
 - c. U.S. States
 - d. Canadian Provinces
 - e. Countries
 - f. National/Provincial Parks
 - g. U.S. National Forests
 - h. Harley-Davidson Facilities
 - i. Harley Davidson Museum
 - j. Harley-Davidson Dealerships **
 - k. International H.O.G. Rally
 - l. U.S./Canadian Regional H.O.G. Rallies/Pin Stops
4. SUBMIT: mail your photos and your entry form by December 31st of the current year to H.O.G.
5. WIN: prizes are based on your total points earned (plus a year's worth of bragging rights!)

* You only need to be in 5 of the photos, the others may be of the bike only with magazine cover and "official sign."

** Dealerships may be used for more than one point. For instance, Harley-Davidson of Atlanta can be used as a "Dealership" point, but can also be used as the "L" for your city because it is located in Lithia Springs

and as your state for Georgia. Just be sure to submit multiple copies of the same photo to get credit for each point.

If you're quick with math, you have already figured out that there are many possible points available to you to earn prizes. The minimum you can submit for a prize is 5 points. This year, the prize levels are as follows:

PRIZES

1. First Place: Print/Image from Harley-Davidson Museum signed by Bill Davidson, exclusive ABCs of Touring Contest wall clock, and FXRG Jacket (1 winner)
2. Second Place: Exclusive hand-designed art piece by Ray Drea, H-D Chief Stylist and 3 pieces from the Harley-Davidson Premium Touring Luggage Collection (1 winner)
3. Third Place: Harley-Davidson Illumination 360 Rain Suite, Harley-Davidson Performance Boots and H.O.G. Roadside Assistance Ultra Plus package for one year (1 winner)
4. 78 Points or More: ABCs pin, patch, baseball cap, helmet bag, battery pack/mobile device charger and ABCs zip fleece.
5. 52 to 77 Points: ABCs pin, patch, baseball cap, helmet bag and battery pack/mobile device charger
6. 26 to 51 Points: ABCs pin, patch, baseball cap and helmet bag
7. 5 to 25 Points: ABCs pin, patch and baseball cap

Any full or associate H.O.G. member may participate. All photos must be in print format, slides and digital photos are not accepted. Your Harley-Davidson Motorcycle or an authorized Harley-Davidson rental motorcycle must be in each photo along with the magazine and official sign.

The ABCs of Touring was created to give new riders an incentive to get out on their Harley and explore. Our Chapter has quite a few die hard ABCs of Touring riders and we try to go out as a group on an official Chapter ride several times a year. Stay tuned to the eBlast and the HOGWASH for news on upcoming ABC rides!

2015 HAUNTED COAST GEORGIA HOG RALLY

Online registration is up and running for the Georgia HOG Rally on Jekyll Island. Lots of us have already booked our rooms, so if you haven't yet now's a good time to do so. You can find all the information you need [here](#).

SAFETY CORNER: GUIDE TO GROUP RIDING

It's gonna happen. No matter how much you check the radar and listen to multiple radio stations for the forecast, after all we all should trust out local Meteorologist, you will eventually get caught in the rain on your motorcycle (even you Barbara). Whether you're in the group that have been in the rain before, or the one that will be in the future, you should keep in mind some basic riding tips when it's raining.

The oil, rubber particles, antifreeze and brake dust that cars leave behind becomes a slimy mess of slippery stuff as rain begins to wash it away. It's best if you can take a break, or delay your departure for the first 20 minutes or so after it starts raining. If it is just a light rain or misting, it could be slippery most of the day so be careful. If it hasn't rained in a while, there's even more junk on the road that needs to be washed away.

Once you do start riding, stay in the left or right third of the road to avoid the oil dripping from the truck in front of you. On curves the road usually is sloped to the inside, so the oily water will drain to the low side and pool by the curb. Since oil floats on top of the wet road, you can watch for the rainbow color sheen or drops beading up on the roadway and avoid it.

Once the road has been washed clean, it has about 80 percent of the friction of a nice dry highway, so that means you still need to be about 20 percent more cautious! Start by slowing down and making gradual changes in speed and direction. Avoid the sudden stop if possible by anticipating the actions of the cars in front of you, stop lights, etc... Use more rear brake than normal so both front and rear share the braking equally. Do your braking while still in a straight line, and then ease into turns. Downshift smoothly by engaging the clutch slower than usual.

Painted or plastic road markings, metal manhole covers and railroad tracks are a piece of cake when dry, but become very slick when wet. Watch out for wet leaves in the fall piled up along the curbs too. Adjust your line when crossing slippery areas like railroad tracks to as close to 90 degrees as possible. Brick streets and graded bridges are also more hazardous in the rain.

Hydroplaning is when the water doesn't escape through the grooves of the tire fast enough, so the tire lifts up on top of the water and loses traction. If your tires are worn, they don't have the ability to channel the water away to either side. The harder it rains the more water on the pavement for the tire to channel away. Wider tires have more contact surface during dry weather, but can be more prone to Hydroplaning. Improper inflation is also a factor and can increase the chance of Hydroplaning. If you do feel the bike start to wander, slowly ease off the throttle and keep the front wheel

PROPOSED HOUSE BILL 166 - MOTORCYCLE MOBILITY SAFETY ACT

HOUSE BILL 166 has been introduced by Representative John Yates of the 73rd, Alan Powell of the 32nd, and Earnest Smith of the 125th to amend Chapter 6 of Title 40 of the Official Code of Georgia Annotated, relating to the uniform rules of the road. The proposed changes provide for the safe operation of a lightweight motorcycle or motor vehicle through an inoperative traffic-control signal; to repeal certain provisions relating to handlebars; to provide for a short title; to provide for related matters; to repeal conflicting laws; and for other purposes. This Act will be known as the Motorcycle Mobility Safety Act.

The Bill Reads:

Chapter 6 of Title 40 of the Official Code of Georgia Annotated, relating to the uniform rules of the road, is amended by revising subsections (a) and (e) of Code Section 40-6-20, relating to obedience to traffic-control devices, as follows:

"(a) The driver of any vehicle shall obey the instructions of an official traffic-control device applicable thereto, placed in accordance with this chapter, unless otherwise directed by a police officer, subject to the exceptions granted the driver of an authorized emergency vehicle in this chapter. A violation of this subsection shall be a misdemeanor, except as otherwise provided by paragraph (2) of subsection (e) and subsection (f) of this Code section."

"(e)(1) Except as provided for in paragraph (2) of this subsection, the
The disregard or disobedience of the instructions of any official traffic-control device or signal placed in accordance with the provisions of this chapter by the driver of a vehicle shall be deemed prima-facie

evidence of a violation of law, without requiring proof of who and by what authority such sign or device has been erected.

(2) If a traffic-control device or signal is inoperative due to the lightweight design of a motorcycle or other motor vehicle and the driver has remained stopped for not less than 60 seconds, then the driver may treat such traffic-control device or signal as a stop sign, and his or her right to proceed shall be subject to the rules applicable after making a stop at a stop sign as provided for in Code Section 40-6-72. Nothing in this paragraph shall restrict the permissibility of a driver to make a right turn as provided for in paragraph (3) of subsection (a) of Code Section 40-6-21."

Said chapter is further amended by revising Code Section 40-6-314, relating to footrests and handlebars, as follows:

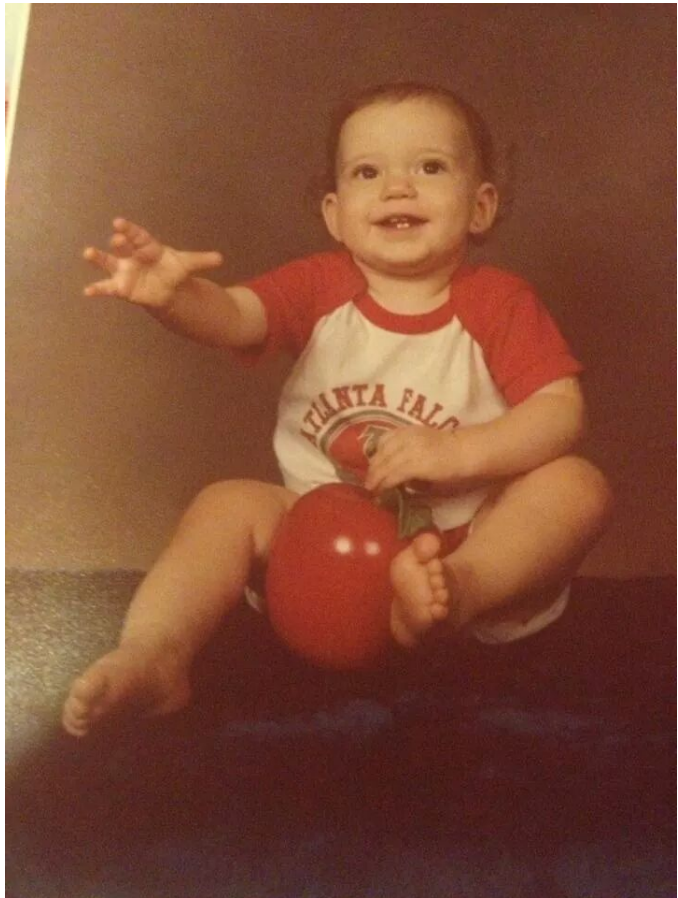

"40-6-314. ~~(a)~~ Any motorcycle carrying a passenger, other than in a sidecar or enclosed cab, shall be equipped with footrests for such passenger.

~~(b) No person shall operate any motorcycle with handlebars more than 15 inches in height above that portion of the seat occupied by the operator or with a backrest more commonly known as a sissy bar that is designed in such a way as to create a sharp point at its apex."~~

(They are requesting the removal of the handlebar restriction from the code.)
